Transform Your Cash Handling

Explore an Efficient Cash Cycle all the Way Around

The steady flow of cash into your back office needs to be counted, allocated and secured quickly and efficiently. With the RCS-900 you take control of your cash through an efficient cash cycle all the way around, from internal note handling to CIT operations. This ensures both time and cost savings, as well as an increased customer service.

Turn Cash into Real Value

The RCS-900 is a powerful automator for your back office operations within hospitality, retail, leisure and public transport. Make this smart solution part of your daily operations, instead of spending hours on administration and counting. This ensures quick return of investment through dramatically improved cash management.

Improved Productivity

Simplify all daily tasks from counting and managing till content, reconciliation and reporting in-store cash, which allows the staff to be deployed into higher value activities. Our on-site software coupled with the RCS-500 provides full visibility and accurate reporting of your cash cycle.

Decreased Working Capital

CashComplete™ software provides accurate and efficient management of in-store cash holding requirements, allowing you to deposit surplus cash into your bank. Our enterprise software makes it simple to monitor your inventory position in real time across your business.

Increase Efficiency

The RCS-900 fully automates your note handling to speed up the process allowing you to spend less time managing your cash. Automated till dispense to increase efficiency at the start and end of shifts, reducing human reporting errors and
