

SPS-700 & SPS-800

Next Generation Smart Point of Sale Solution

Complete POS Automation
Customer facing Cash Recycling Solution

Enhance Cash Payments at Point of Sale

The new Smart POS Solution is the fully automated Point of Sale recycling solution that minimizes manual cash handling at check-out lanes. It offers your customers improved service with smooth and intuitive payments, always with correct change. Improve uptime by securing the whole cash loop, while preventing the incidence of unfit notes acceptance, counting errors and shrinkage.

► Focus on Customer Experience

Customers pay quickly and easily with both bulk coins and notes at the checkout. Associates can now focus on what's most important — your customers.

► State of the Art Technology

With a decade of in-field experience in Smart POS and cash recycler component ownership we are able to provide the highest technical standard and the best support.

► Accurate and Instant Validation

World-leading sensor technology recognizing and rejecting unfit notes and coins.

► High Security

Automated cash handling offers full in-store cash security with reduced risk of loss.

► Applications

Smart POS Solution is ideal for bakeries, convenience stores, pharmacies and restaurants as well larger retailers, enabling hands-free cash handling.

► Closed end-to-end Solution, Securing the Entire Cash Loop

For larger retailers with multiple checkout lanes, such as grocery stores and department stores, we offer a closed end-to-end solution with full back office monitoring. The use of a transport unit provides an efficient and secure way to refill and transport banknotes. All the cash transactions are recorded instantly.

► Easy to Install

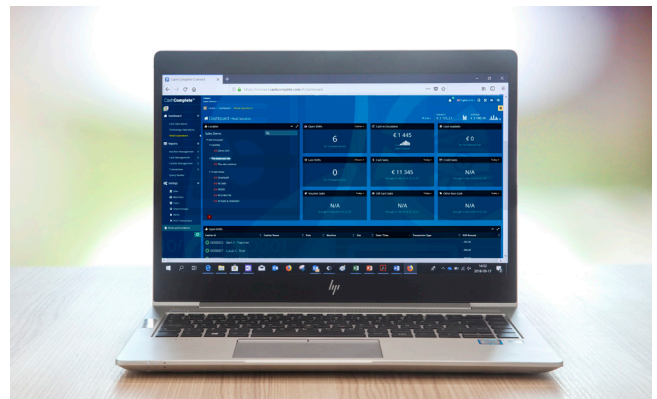

Its compact design allows it to fit seamlessly into the counter space. SUZOHAPP software offers quick and easy integration into any POS system or application.

► Modular Design

The modularity of SPS-700 and SPS-800 simplifies its operations and serviceability. The solution offers different access levels for additional security and easy maintenance.

► Comprehensive Monitoring Software

The powerful CashComplete™ Connect supervisor software enables management to monitor cashier operations and payment facilities, with real-time replenishment and pickup alerts. For the bookkeepers, it offers live cash flow monitoring with reconciliation, daily credit, and access to wide-ranging reports with a touch of a button.

Benefits

- ✓ Quick and Easy Cash Checkout
- ✓ Increased In-store Security
- ✓ Minimizing of Counting shortfalls and Reduced Shrinkage
- ✓ Saves Time at Tills Open, Close and Shift Changes
- ✓ Accurate, Automated reconciliation and Reporting
- ✓ Improved Customer Shopping Experience
